

Think the economy's **bad** now?

THE CFPA WILL MAKE IT WORSE

We're all feeling the effects of this economy. Now Washington wants to make it even harder for Americans to do business through the proposed Consumer Financial Protection Agency (CFPA) Act.

Eight in ten new jobs are created by small businesses, but the CFPA Act would cut access to credit for millions of small businesses, making it harder for growing companies to expand operations and hire new employees. The CFPA is the wrong way to protect consumers. And it couldn't have come at a worse time.

We need more jobs, not more **government bureaucracy.**
